

I'm too tired, I cannot sleep
Flashbacks that keep me awake
I wanna run, but my legs won't make it
Life's fucked, guess I'll have to fake it
Schizo inside my head (3x)
Schizo
You sit in my head and criticise
You're everything that I despise
You point your finger and it points at me
Why won't you let me be?
Don't say I'm right when you know I'm wrong
A fucked up feeling that I don't belong
I hear you laughing inside my head
Guess I'd be better off dead
How much do I have to take?
Pressure in my head, it suffocates
Can't breathe, I'm lacking breath
I'll take off some fuckers head
Take off the head
