

Semisweet Ecstasy

Broken Iris

I'm scared to death of living this life without you
I'm so surprised that I can't even breathe
Something so good (I waited) too long (to say) goodbye
Such a damn fool (I should have tried) to swallow all my pride

How can this be wrong
When it feels so right
I believe you were wrong
Would you give me one more night?

I got what you need
A semisweet ecstasy
