

## Wrong Line

## Broken Social Scene

Well I found another town wandering around  
Yes I've been walkin' all my, all my life  
So far I've walked  
Still I'll find my place

It's out here I know the terrible sounds  
We all scream for no one, no one understands  
But our sky will follow, was it all on me?  
We all see what we are and we'll never learn

Got caught in the wrong line  
Got caught in the wrong line  
Got caught in the wrong line  
Got caught in the wrong line

Turn around  
Turn around

It's out here I know the terrible sounds  
We all scream for no one, no one understands  
But our sky will follow, was it all on me?  
We all see what we are and we'll never learn

Got caught in the wrong line
