

# I'm Sorry

Brokencyde

I've been wrighting this letter  
for a couple of months now  
and right now  
what I wanna do  
Is I wanna express this letter  
to you  
It goes like this

chorus:

Your eyes  
they flow  
from all the pain i caused  
i lost my cause  
i only broke your heart  
alone i cry  
i tried so hard to break you  
i love you  
I hate you  
why wont you let me go?

(I feel the raindrops fall  
these tears wont take you away  
im sorry)

(I hear the thunder scream  
its screaming out for me  
Im sorry)

the rain it drips the rain drops dripping) (x8

[Chorus Repeat]

(the rain will follow me, i feel like i cant breath, im sorry)  
(I fell asleep again, when will this tempest end, im sorry)

the rain it drips the rain drops down) (x8

[chorus repeat]

(I finally realised  
that i fucked up your life  
im sorry)

the rain it drips the rain drops dripping) (x8

[chorus repeat]

I'd die tonight  
If only you were here  
I'd tell you im sorry  
I'd fucking disapear

...  
you look so pretty now  
without me  
alone

the tears come crashing down
