Bass like, "Boom, boom"
Dancing on to autotune
[?] in her DNA, she's too cute
Pop it, drop it, that's what she's here for
Pop it, drop it, that's what I'm here for
Shake it like he touched it when it's too damn hot
Pop and drop, get low like the titties in a tube top
Pop it, drop it, that's what she's here for
Pop it, drop it, that's what I'm here for

Where you at? Come party-
Where you at? Come party-
Where you at? Come party with me (Let's gooo)

Where you at? Come party with me
(Where you at? Where you at? Come party with me)
Where you at? Come party with me
(Where you at? Come party with me, let's go)
Where you at? Come party with me
