

All Choked up

BRONCHO

Don't you want to worship?
Worship all your idols
Don't you want your idols?
Don't you want to worship?

Don't sit down, I need to say something
I need to say another before I get choked up
I wanna dig deep and I wanna dig deeper
Unless you use another way to get choked up
My mom said this five years ago
Wonder if you ever even looked this up
I bet you feel fine, I bet you need money
I bet you need another, you could get touched up

Don't you want to worship?
Worship all your idols
Don't you want your idols?
Don't you want to worship?

Don't you want to worship?
Don't you want to worship?

I wanna move fast, I know how you go
I know you're moving down to Mexico
Get back and get beat if your back is into it
Unless you use another way to get choked up
My mom said this five years ago
I bet you never ever even looked this up
I know you look fine, I know you look money
I know you need another, you could get touched up

Don't you want to worship?
Worship all your idols
Don't you want your idols?
Don't you want to worship?

I really really wanna, I wanna get choked up
I really really wanna, I wanna get choked up
Don't you want to worship?
Don't you want to worship?
