

# Blown Fuse

BRONCHO

(She's got a short fuse)  
Watch out for Lady Liberty  
(She's got a short fuse)  
Watch out for my [?]  
(She's got a blown fuse)  
Watch out or she'll make you your pay  
(She's got a blown fuse)  
Watch out boy, she's coming your way  
(Hey, hey, hey)

She always comes home in the middle of the night  
You tell her that she's wrong, she'll tell you that she's right  
She tries to put someway to lift you on a bite  
With little just cause comes a little more fight  
She'll always twist the flag in the middle of the town  
You know her by her dress 'cause she's always got the gown  
She wants to move up, you wanna go down  
She'll never get you up but she'll always get you 'round

(She's got a short fuse)  
Watch out for Lady Liberty  
(She's got a short fuse)  
Watch out for my [?]  
(She's got a blown fuse)  
Watch out or she'll make you your pay  
(She's got a blown fuse)  
Watch out boy, she's coming your way  
(Hey, hey, hey)  
(Hey, hey, hey)  
(Hey, hey, hey)

Welcome to the future, 1988  
She got the attitude of motherfuckers that you hate  
Another Reagan down, another crooked state  
Another crucified just to burn 'em at the stake  
You gotta keep it cool so you take her on a date  
Just to keep it cool, yeah you know she'll make it late  
Tried her like a torch, keep it to herself  
The more you wanna love is the more you gotta wait

(She's got a short fuse)  
Watch out for Lady Liberty  
(She's got a short fuse)  
Watch out for my [?]  
(She's got a blown fuse)  
Watch out or she'll make you your pay  
(She's got a blown fuse)  
Watch out boy, she's coming your way  
(Hey, hey, hey)  
(Hey, hey, hey)  
(Hey, hey, hey)

Little miss country's got a blown fuse right now
