

Goodness gracious great wall of china
Goodness sakes I ain't gonna find ya
God is great he ain't gonna mind ya
Goodness gracious ain't gonna mind ya

Ski is got the poles got the keys to find ya
Only just because I've been need in to hide ya
I got my new world taste
Got my new york fit

I gotta find a new place where the kids are the shit
Goodness gracious great wall of china
Need most things
And even the new things
Writes most wings
And mostly the right wings
Only coming clean if there's some kind of due
I mean I'm only coming clean if there's some kind of due
I know I'm only coming clean if there's some kind of due
Press your luck on the first thing you think of
Needs more what you are needing what of
I know the first two places that I wanna check
I know the first two faces that I wanna peck
I know the first place that I want to peck

Ski is got the poles got the keys to find ya
Only just because I've been need in to hide ya
I got my new fresh face
Got my new york fit

I gotta find a new place where the kids are legit
Goodness gracious great wall of china
God is great and God is great and God is great and God is great
I gotta find a new place where the kids are legit
I gotta gotta find a place with a new york fit
I gotta gotta find a place where the kids are legit
God is great and God is great and God is great and God is great
