

Easy Way Out

BRONCHO

I don't really wanna get shut down today, no
I just wanna get shook up
I don't really wanna get you out of the bed, no
I just wanna get you up
I don't really wanna have it any other way, no
I just wanna shake it up

And it's nobody's fault
I'm just a natural at it
I only know the easy way out
Only, only, only, only, only
Only, only, only, only, only

I barely got the time to talk about it
Barely got the time for me
I know you heard I like to talk and talk about it
I just wanna watch you reach
Ready or not, I think it's happening now but
I just wanna watch you teach

And it's nobody's fault
I'm just a natural at it
I only know the easy way out
Only, only know the easy way out
Only, only know the easy way out
Only, only know the easy way out
Only, only know the easy way out
Only, only, only, only, only
Only, only, only, only, only
Only, only, only, only, only
Only, only, only, only, only

On occasion on vacation
I know how to sell it
I know how to keep receipts
I was saying on vacation
I know how to tell it
I know how to heat your seats
I don't really wanna have it any other way
I don't really wanna have it any other way

And it's nobody's fault
I'm just a natural at it
I only know the easy way out
Only, only know the easy way out
Only, only know the easy way out
Only, only know the easy way out
Only, only know the easy way out
Only, only, only, only, only
Only, only, only, only, only
Only, only, only, only, only
Only, only, only, only, only
