

I Know You

BRONCHO

It's your wedding
It's your wedding too
It's a feeling that you're feeling through

Keep your head on tight
Get to feeling right
You'll be safe tonight only if you keep it at a medium high

Don't worry about
I'll always do
Tryin' to wonder why
I know you
I don't understand
I'll always do
I know you

Keep the money alive
Keep a medicine mind
And you'll realize or you wouldn't even be here tonight

Tryin' hard for me
But what's the use everybody

I know you

I don't understand
I'll always do
I know you

Try so hard
But what's the use everybody

Don't worry about
I'll always do
Tryin' to wonder why
I know you
I don't understand
I'll always do
I know you

It's your wedding
It's your wedding too
It's a feeling that you're feeling through

I know you
