BRONCHO

You might get a little bit on ya  
You might get a little relied  
You might meet your double in the middle of midnight  
You might be feeling the heat

Oh, don't dodge your cover  
It don't cash for free, yeah  
Shh, there's your double  
It don't cash for free, yeah  
Put my hands up above the cover  
Your mind don't bother me  
The magic of the cover  
Only no, it won't take you for free  
Oh, oh, oh

You might be taking back all your candy  
You might be taking back what was free  
You might be in the corner with baby  
You might be in the corner with me

Oh, don't dodge your cover  
It don't cash for free, yeah  
Shh, there's your double  
It don't cash for free, yeah  
Put my hands up above the cover  
Your mind don't bother me  
The magic of the cover  
Only no, it won't take you for free

Undercover  
Don't let me know that it's real  
Don't let me know it's real, real  
It feels  
It's real 'cause it feels  
It's real 'cause it feels, feels  
It feels  
I know it's real
