

# What

BRONCHO

Don't you look tough, cause you're in a little higher  
If you got it, then you know you gotta get it on you, on you  
Where'd you get ya stuff? Would you know if you've been loved?  
Look good on you, look good on you, on you

One hand on the wrist  
Two hands on the mirror  
Oh what oh what

This' spot feels rough, only you're dryer  
Look fits too much, gonna get it on you, on you  
You're the highest of, when you're catching any dinner  
God bless this bitch, gonna get it on you, on you  
One hand on feels, two hands on remember  
What, what, what

I've been gone, alone  
I couldn't get it on  
I could turn, you on  
I couldn't get it on

Was it your first time? Was it up to you?  
A vision to think, if you want to  
You got first, I got home, you got left  
To when you'll come, come  
I'm gonna put you high, high up  
Hey girl, let me get it, get it on you, on you, on you, on you  
That ain't no bust, and you're flaming on fire  
We get it on, we get it on you, on you, on you

I've been gone, alone  
I couldn't get it on  
I could turn you on  
I couldn't get it on  
A little pissed so may not remember  
What, what
