

All In

Bronze Radio Return

I'm gonna take these rocks and turn 'em into diamonds
Sell 'em on the corner
Bring the money home to you

I work all day and set aside my pride
I'll beg, bleed, and dance
Just as long as I provide
It may not be much, but I'll make sure we survive

I'm goin' all in, gonna figure it out
It's what you do with it, how you do without
I'm goin' all in, and I'm startin right now

I'm gonna take this song and sell it for a million
Buy a little house where we can grow a little garden
With our porch we'll sit on and drink coffee in the morning
Write tunes in our living room, where you paint a canvasso ador
ing
We'll lie in doubt to live our lives without warning

Goin' all in, gonna figure it out
It's what you do with it, how you do without
I'm goin' all in, yeah I'm startin right now

I hear laughing in the kitchen
I see you dancing on the floor
I smell the meal that you've been fixing and I don't worry anym
ore
And every night we fill our glasses, and when we're light, we'l
l pour some more
Our life is sugar like sweet molasses, the taste that we've bee
n workin for
Laughin' in the kitchen
We'd be dancin on the floor

Goin all in, gonna figure it out
It's what you do with it, how you do without
I'm goin all in, yeah I'm startin right now
Goin all in, gonna figure it out
