

Daylight

Bronze Radio Return

I see a light shine
Wanna let it in from the outside
Feel in on my skin
Right away, away, away
Oh-oo

You got what I like
When you're not around
I don't feel right
I could use you right now
Right away, away, away
Away, away, away

Daylight, with the sun I'm in now
Gonna soak up what you're givin'
Daylight, there's somethin' about you
When you show up, oh I'm livin'
I come alive, alive, alive, every time
When you do, you do, you do
I come alive, alive, when I see you alive
Yes I do, I do, I do

So fine, you're the battery in my flashlight
Givin' energy to my day, my day, my day
All day, all day, all day

Daylight, with the sun I'm in now
Gonna soak up what you're givin'
Daylight, there's somethin' about you
When you show up, oh I'm livin'
I come alive, alive, alive, every time
When you do, you do, you do, you do
I come alive, alive, when I see you alive
Yes I do, I do, I do, I do
I come alive, yes I do
I come alive, and you do too

Daylight, I take it like a drug, come on
I try, but I never get enough oh
When I'm down it's pullin' me up, come on
Daylight, I can never get enough of ya

Come through my window please
I left it open for ya
Slide in and rescue me

I come alive, alive, alive, every time
When you do, you do, you do, you do
I come alive, alive, when I see you alive
Yes I do, I do, I do, I do
I come alive, yes I do
I come alive, and you do too
Yes I do
I come alive, and you do too
Alive, yes I do
I come alive, and you do too
Alive, yes I do

I come alive, and you do too
