

## Door Closes

### Bronze Radio Return

One day, you're on top  
Right in a good spot  
And then some day you fall off  
Lose all that you got

We say hey, then goodbye  
Over a thousand times  
'S'okay, it's life  
Know this and you'll be fine

That's how it goes  
When a door closes  
A window opens

Oh, some you can choose  
And some will be chosen  
When a door closes  
A window opens

You win some, you lose some  
It's about breaking even  
So, hang on, the day's gone  
But you got the evening

It's okay to be shut down  
And locked out of where you been  
Just wait and see how  
You find a new way in

That's how it goes  
When a door closes  
A window opens

Oh, some you can choose  
And some will be chosen  
When a door closes  
A window opens

When a door closes  
A window opens

It's there, where, they close  
It's right there looking at you, the window  
It's right there, giving you air, the window  
It's right there looking at you  
It's right there looking at you

That's how it goes  
When a door closes  
A window opens

That's how it goes  
When a door closes  
A window opens

Oh, some you can choose  
And some will be chosen

When a door closes  
A window opens

When a door closes  
A window opens  
When a door closes  
A window opens
