

Get All Over It

Bronze Radio Return

No, not the fingertips
It'll get the whole hand dirty
It's the injuries and elbow grease
That make the body sturdy
And if you're into that
Turn it on like a thermostat
Hot mess, effortless
Throw yourself where the heat is at

Make it work somehow
Get all over it
Pour it all out
Get get all over it now
Make a mess throw down with a little grit
Let it all out
Get get all over it

Hey, are you digging in
Or are you on the surface?
With all you got do you serve it out
'Til you're out of service?
You can wait and see
Make bets on the lottery
Or jump in, teeth and skin
Grind it out with your whole damn body

Make it work somehow
Get all over it
Pour it all out
Get get all over it now
Make a mess throw down with a little grit
Let it all out
Get get all over it

And if doesn't pan out I can say I saw
The real thing rather than a photograph
I'd rather make a story I can laugh at
Than write a lacklustre paragraph
Sight is all in how you see
We look for it or watch it leave
Sight is all in how you see
We look for it or watch it leave

Make it work somehow
Get all over it
Pour it all out
Get get all over it now
Make a mess throw down with a little grit
Let it all out
Get get all over it
