

Keep Or Lose

Bronze Radio Return

It's been quiet for a while
Now there's something making noises
It's growing and it's closing in
It's time to make some choices

To stop or keep it going
To stay or say farewell
How bad could it real-ly be?
Only time will tell...

Put out the light, put out the light, put out the light
Or let it glow
Put out the light, put out the light, put out the light
Or let it glow

Ride out the rain or roll on
What now, down to the wire
Blow out the flame or hold on
Watch out, here comes the fire now

It's a make or break decision
So much on the line
Something's gonna happen real, real soon
Running out of time

Put out the light, put out the light, put out the light
Or let it glow

Ride out the rain or roll on
What now, down to the wire
Blow out the flame or hold on
Watch out, here comes the fire now

Put out your light or glow
Pull up the root or let it grow
Put up a fight or go
Pull up the root or let it grow

Hope that you're right, hope that you're right, hope that you're right
t
Hope that you know
Hope that you're right, hope that you're right, hope that you're right
t
Hope that you know

Ride out the rain or roll on
What now, down to the wire
Blow out the flame or hold on
Watch out, here comes the fire now
