

# Right There Beside You

Bronze Radio Return

Honey I know we're caught in the center  
Of turbulent weather for now  
But one thing I know  
Is the world is uncertain  
But certainly turning around

I'll be here a long time  
I'll be in it for as long as you like  
And no matter what you and I do  
Whatever comes next I'll be right there beside you

Cause I'm right where I wanna be  
I'll be right there beside you  
I know right where I wanna be  
I'll be right there beside you  
I'll be right, I'll be right, I'll be right  
Ridin' right beside you  
Ohh, you know right where I'm gonna be  
Right there beside you

Water is rising, the levee is broken  
It's flooding commotion this way  
And it feels like we're sinking  
But things will get better  
We'll hang on together ok

I'll be going nowhere  
I'll be in it with you honey I swear  
And no matter what you and I do  
Whatever comes next I'll be right there beside you

Cause I'm right where I wanna be  
I'll be right there beside you  
I know right where I wanna be  
I'll be right there beside you  
I'll be right, I'll be right, I'll be right  
Ridin' right beside you  
Ohh, you know right where I'm gonna be  
Right there beside you

I'm not alone, no  
And neither are you

It's a hell of a time to be living through  
I'm not afraid, no  
And you shouldn't be too  
I've got one hand to hold the roof down  
And the other's holding on to you  
Holding on to you

Oh, you know right where I'm gonna be

Ohh, I'll be right, I'll be right, I'll be right  
Ridin' right beside you  
Ohh, you know right where I'm gonna be  
Ridin' right beside you (I'll be right there beside you)  
I'll be right, I'll be right, I'll be right

Ridin' right beside you (I'll be right there beside you)  
I'll be right, I'll be right, I'll be right  
Ridin' right beside you

I'll be right there beside you
