

## Say Hello Sometime

Bronze Radio Return

And as a matter of fact  
There's a time and a place we can both trace back to  
Maybe a concert hall  
Playing rock-n-roll or a hole-in-the-wall, too

Through a crowded room we shared a drink or two  
Yeah, we had a good laugh  
I could tell that I liked you  
And when the night shut down  
I said so long, man  
I hope to see you around

Old friend of mine  
Old friend of mine  
How I hope to see you on down the line  
If you're passing by  
Man, I hope you come say hello sometime

It's you, and all the people I meet  
Here and along the way  
Oh, they stay in my passenger seat  
Maybe a year will pass  
Before I see you again  
But if you're nearby come see me

Old friend of mine  
Old friend of mine  
How I hope to see you on down the line  
If you're passing by  
Man, I hope you come say hello sometime

Hey, 'til the next time comes around  
I wish you well  
Hey, 'til the next time comes around  
I wish you well  
Hey, 'til the next time comes around  
I wish you well

Hey...
