

Still In Motion

Bronze Radio Return

I'm well aware
There's a long way to go before I'm there
But I'm still in motion, still in motion
I'll grind all my gears
And trade my home for a new frontier
'Cause I'm still in motion, still in motion

Rather be the last one in
Than be first to let it go
Oh I would rather be late
Than give up and never show

So oh come and oh, move steadily
We keep on going at our own speed
So come on and soon we'll see
Get there going at our own speed

Well my sight is set and I'm on my way
And every step I take I make day by day
'Cause I'm still in motion, oh I'm still in motion, oh I'm still in motion

Sometimes I walk real slow
And other times I run
When the push comes to shove
I know I'll get it done
'Cause I'm still in motion, oh I'm still in motion, oh I'm still in motion

So oh come and oh, move steadily
We keep on going at our own speed
So come on and soon we'll see
Get there going at our own speed

Rather be the last one in
Than be first to let it go
Oh I would rather be late
Than give up and never show

So oh come and oh, move steadily
We keep on going at our own speed
So come on and soon we'll see
Get there going at our own speed
