

Why Do You Believe Me?

BROODS

Hey, I feel like it's been so long
I never see you, never
Always see your song
You must be so happy
Living how you wanted
Doing what you please

Say the things you think you need to say
And now I'll observe everything the same
Know that I've rehearsed it everyday
Why do you believe me?

Why do you believe me when I say I'm coming home?
Maybe 'cause I love and get back up each time I fall
Why do you believe me when I say I'm in control?
I don't wanna sleep tonight and feel nothing at all

Hey, I feel like it's been so long
Love when I'm at work and I hear your song come up
You have everything
All those famous friends, we get in shifts for free

Say the things you think you need to say
And now I'll observe everything the same
Know that I've rehearsed it everyday
Why do you believe me?

Why do you believe me when I say I'm coming home?
Maybe 'cause I love and get back up each time I fall
Why do you believe me when I say I'm in control?
I don't wanna sleep tonight and feel nothing at all

Say the things you think you need to say
Know that I've rehearsed it everyday

Why do you believe me when I say I'm coming home?
Maybe 'cause I love and get back up each time I fall
Why do you believe me when I say I'm in control?
I don't wanna sleep tonight and feel nothing at all
I don't wanna sleep tonight and feel nothing at all
