

# A Million Miles From Nowhere

Brook Benton

A million miles from nowhere  
A million miles from you  
A million miles from nowhere  
Alone, broken hearted and blue

Memories of you  
And the love we once knew  
How they linger in my heart  
Though we're a million miles apart

A million miles from happiness  
A million miles of lonlieness  
Through a world of wilderness  
Oh, how can I go on like this

A million miles from nowhere  
A million miles from you  
A million miles from nowhere  
Alone, broken hearted and blue  
Alone, broken hearted and blue  
A million miles from you
