A Million Miles From Nowhere

Brook Benton

A million miles from nowhere A million miles from you A million miles from nowhere Alone, broken hearted and blue

Memories of you
And the love we once knew
How they linger in my heart
Though we're a million miles apart

A million miles from happiness A million miles of lonlieness Through a world of wilderness Oh, how can I go on like this

A million miles from nowhere A million miles from you A million miles from nowhere Alone, broken hearted and blue Alone, broken hearted and blue A million miles from you
