

Bring Me Love

Brook Benton

Bring me love, bring me love
You gotta bring me that love that is sweet
Making mine all the time
Bring me a love that won't cheat

Give kiss, give a little kiss
I want to feel the fire burning my soul
Thrill me, dear, have no fear
Our love will never grow cold

You don't have to swim the ocean
Or take stars from the blue
Let's keep this thing simple
Just do what you can do

Bring me love, bring me love
You gotta bring me a love that is true
And when you do, baby, do
A true love, I'll give to you

No, you really don't have to swim the ocean
Or take stars from the blue
Let's keep this thing simple
And do what you can do

Bring me love now, bring me that love
You gotta bring me a love that is true
And when you do, please do
A true love, I'll give to you
A true love, gotta give it to you

Bring me love
Bring me love
