

Downplay

Brooke Alexx

Never think about you
Do what I do, back up on cue
I'm not missing your face
Got you erased
Okay, okay

You moved on, yeah same
I don't even flinch when I hear your name
At least that's what I say
Okay, okay

Lie to myself every time
I see you out, caught by surprise
I lie to myself, just deny
You're still the one on my mind

I downplay, try to downplay
Every time I see you it's a whole new heartbreak
They say can't do it halfway
Gotta cut ties, get a clean slate
Wishing it was no big deal in the worst way
Acting like it wasn't real in the first place
Downplay, try to downplay
Every time I see you it's a whole new heartbreak

Do you fool yourself too
Playing it cool, like I'm old news
Are you really unfazed
Forgot about me
Okay, okay

You moved on, yeah same
I don't even flinch when I hear your name
At least that's what I say
Okay, okay

Lie to myself every time
I see you out, caught by surprise
I lie to myself, just deny
You're still the one on my mind

I downplay, try to downplay
Every time I see you it's a whole new heartbreak
They say can't do it halfway
Gotta cut ties, get a clean slate
Wishing it was no big deal in the worst way
Acting like it wasn't real in the first place
Downplay, try to downplay
Every time I see you it's a whole new heartbreak

Lie to myself every time
I see you out, caught by surprise
I lie to myself, just deny
You're still the one on my mind

I downplay, try to downplay
Every time I see you it's a whole new heartbreak

They say can't do it halfway
Gotta cut ties, get a clean slate
Wishing it was no big deal in the worst way
Acting like it wasn't real in the first place
Downplay, try to downplay
Every time I see you it's a whole new heartbreak
