

## Fix It

Brooke Candy

If you wanna hit this, then you gotta fix it

I could be a good cop, I could be a bad cop  
I could tie you up until you wanna make your heart stop  
Baby, I'm a mistress, baby, I'm a temptress  
Baby, for the weekend I can get a little vicious

Don't you know what you signed up for?  
Tardy and now you're mine for sure  
Try to run and not for a whore (I'm suffocating, -cating)  
I'll show you all the signs of love  
Dirty dancing, yeah we get fun  
Keep it raw, can you keep it up?

Let's go down low, tap floor, chateau  
Bet that you know  
If you wanna hit this, then you gotta fix it  
I just want to get, I dare you  
Take me now, too  
If you wanna hit this, then you gotta fix it  
If you wanna hit this, then you gotta fix it

Drink you like a siren, now you better dive in  
Hold you underwater till you're thinkin' that you're dying  
I'll teach you a lesson, lesson in affection  
Blow it into pieces 'cause you're picking up the wreckage

Don't you know what you signed up for?  
Tardy and now you're mine for sure  
Try to run and not for a whore (I'm suffocating, -cating)  
I'll show you all the signs of love
