

## Rumor

Brooke Candy

Spread me like a rumor  
Spread me like a rumor

Pink fairy dust with the gold float boots  
Leopard print coat with my latex shorts  
Voice like water with the rhinestone drip  
I run the bank while you run your lips  
Ever seen a bitch in a new mess on?  
Wrap a couple lips like a Betty Boop on  
Showing off her titties like it's always Mardi Gras  
Cleaning up my face 'cause I am next in line

All you talking shit and your pussy is coast  
Looking at these goodies like you're looking at one shot  
Going to the valley try to bring in the rover  
I'll be looking over while he's bending me over

Spread me like a rumor  
Spread me like a rumor

Ay-yo, hot girl, with the nails grim reaper  
Driving you crazy like a Hitchcock feature  
Playboy bunny and the titties aligned  
I press a landing strip and the g-light time  
Uh, how we make the rose buds  
Swerving that tongue, let me fix yo blunt  
Uh, he turn me up for sport  
I'ma swallow that key till I pop the cuffs

All you talking shit and your pussy is coast  
Looking at these goodies like you're looking at one shot  
Going to the valley try to bring in the rover  
I'll be looking over while he's bending me over
