Brooke Candy

I came to crash
I came to cut
I want the flash
I want the rush
Come grab a seat (Come grab a seat)
You want a show? (You want a show?)
I'll bring the heat, baby
You just bring the snow

I'm getting naked on the Internet so what else is new?
I found a stranger on Sunset, I'm 'bout to see how he moves
We gonna burn up like a cigarette, we trashing our room
'Cause I'm a black hole, baby, but it's something I do

I'll show you real destruction
It's a front page, TMZ
I'll give you cheap seduction
You can't take your eyes off me

Now watch me

Motorcycle moaning, I'm a bat out of hell
I got those red eyes rolling like I'm under a spell
I'm on a carousel of crazy and it's serving me well
Yeah, I'm a curse cunt, baby, it's an angel that fell

I'll show you real destruction
It's a front page, TMZ
I'll give you cheap seduction
You can't take your eyes off me
