

Heartless

Brooke Eden

I never believed, I thought
Love's just movies and magazines
I wouldn't dare dream of it
I keep all of them boys at arms length

I just didn't get it
Thought maybe I'm too independent
Or just stone-cold

Heartless
Hopelessly heartless
Like this thing in my chest
Was just empty until you unlocked it
Now I can't stop it
This boom, boom that you started
Is this what I've been missing?
So different from when I was living
Heartless

What'd you do to me, baby?
Now I can feel everything
Like sun on my skin, your touch
So this is real love

It's like I just started breathing
No way I could go back to being

Heartless
Hopelessly heartless
Like this thing in my chest
Was just empty until you unlocked it
Now I can't stop it
This boom, boom that you started
Is this what I've been missing?
So different from when I was living
Heartless
Heartless

As long as you hold it
I know I will never be

Heartless
Hopelessly heartless
Like this thing in my chest
Was just empty until you unlocked it
Now I can't stop it
This boom, boom that you started
Is this what I've been missing?
Baby, you saved me from living
Heartless
Heartless
