I see you sneak a look at me Your smile when you look away I'd like to get to know ya So come a little closer A girl ain't got all day

The ice is melting in my drink
My Tipsy is a' fading fast
I ain't the game to play
If you wanna know my name
All you gotta do is ask

Hey hey baby make a move my way
Clock is tick tick tickin' and it's gettin' late
I don't need no [?] from the likes of you
Come on boy all you gotta do
Is make a move my way
Make a move my way

Don't make a Cinderella outta me
Don't want no prince and a see through shoe
No I don't need no Shakespear
Blowin' smoke in my ear
All you gotta be is you

Hey hey baby make a move my way
Clock is tick tick tickin' and it's gettin' late
I don't need no [?] from the likes of you
Come on boy all you gotta do
Is make a move my way
Make a move my way

Hey boy don't be so chill

Come on over here, get up in my [?]

I've been waiting

Sippin' on my whiskey

Why don't you come on over here and kiss me

Hey hey baby make a move my way
Clock is tick tick tickin' and it's gettin' late
I don't need no [?] from the likes of you
Come on boy all you gotta do
Is make a move my way
Make a move my way
Yeah make a move my way
Make a move my way
