

# Sunroof

Brooke Eden

Maybe it's your southern drawl  
The way you're breaking down my walls  
Baby, they're falling every time we touch  
Been going steady for a few months now  
This is what they write songs about  
Don't know if it's love or a summer crush

A little too soon to tell  
But it feels good as hell  
I just can't help myself, I know  
Yeah, I know

You feel like a sunroof  
On a classic Mustang  
Seventy five degrees outside  
With the summer sunshine on my face  
Sipping on cherry lemonade  
Fall into your mirror shades  
And I don't really need to know much more  
You just make me feel this way, whoa-oh

I know it sounds kinda crazy  
But that's the only way I can say it  
Being beside you just feels right (just feels right)

Good old-fashioned chemistry  
Every time you're kissing me (when you're kissing)  
We don't gotta label this thing to know  
'Cause I know (yeah, I know that)

You feel like a sunroof  
On a classic Mustang  
Seventy five degrees outside  
With the summer sunshine on my face (you are my sunshine)  
Sipping on cherry lemonade  
Fall into your mirror shades  
And I don't really need to know much more  
You just make me feel this way

Everywhere we go (everywhere we go)  
It's like a hand out the window  
'Cause we're loving in slo-mo (loving in slo-mo)  
All you need to know (baby, all you need to know)  
Is words don't do you justice (no, no)  
So I'm gonna say just this (listen up, now)

You feel like a sunroof (ooh-ooh)  
On a classic Mustang (ooh-ooh)  
Seventy five degrees outside  
With the summer sunshine on my face (hey)  
Sipping on cherry lemonade  
Fall into your mirror shades  
And I don't really need to know much more  
You just make me feel this way (you make me feel this)  
You feel like a sunroof  
Candy apple Mustang (candy apple red)  
Seventy five degrees outside

Singing throwback songs while you DJ  
Sipping on cherry lemonade (ooh-ooh)  
Fall into your mirror shades (ooh-ooh)  
And I don't really need to know much more  
You just make me feel this way (oh, you make me feel this way)

(You make me feel this way  
You're like a sunroof, baby  
You're like a sunroof, baby  
You're like a sunroof, baby)
