

## Never Grow up

Brooke White

Everything is up where you wanna be  
With the skyscrapers and the tall trees  
Handfuls of money and fast cars  
Don't wanna be right where you wanna be

When you're feeling down  
All the big people say  
Keep your head in the clouds, sonny  
Don't rush your life away

Never grow up, never grow up, baby  
No need to hurry, you'll get there in time  
Always stay young, you'll understand, baby  
No need to worry, you're doing, you're doing just fine  
Just fine

You wonder who you are, where you saw the seven seas  
Find a [?] of land or will you marry  
Settle down with some [?]  
Or be a gypsy leaving [?] behind

Never grow up, never grow up, baby  
No need to hurry, you'll get there in time  
Always stay young, you'll understand, baby  
No need to worry, you're doing, you're doing just fine  
Just fine

There's a light, there's a light inside  
Don't you know you can fly, fly?

Never grow up, never grow up, baby  
No need to hurry, you'll get there in time  
Always stay young, you'll understand, baby  
No need to worry, you're doing, you're doing just fine  
Baby

Never grow up, never grow up, baby  
You're doing, you're doing just fine  
Just fine  
Just fine
