

## Complete 360

Brooks & Dunn

I was a mess when you first met me  
I said I'd turn it around if you just let me  
And I worked so hard cleaning up my act  
You got me hooked then you threw me back

I turned my life around completely  
Come full circle since the day you ditched me  
I'm back on the town, I'm back on the whiskey  
Honey I done a complete 360

I got a drink in one hand, a phone in the other  
And all my old girlfriends are running for cover  
So I call my booky and I made a bet  
Ya it's only first quarter and I'm back in bed

I turned my life around completely  
Come full circle since the day you ditched me  
I'm back on the town, I'm back on the whiskey  
Honey I done a complete 360

Ya I jump off the wagon, baby. I didn't fall  
Made a big splash like a canon ball  
Lucy and the twins just walked through the door  
That's a double shot of trouble I have been looking for  
Ya I've been looking for you girls  
I did a 180 for your affection  
I went the extra mile in the wrong direction  
If you want me back well you can find me at home  
Ya or down at the bar just doing you wrong

I turned my life around completely  
Come full circle since the day you ditched me  
I'm back on the town, I'm back on the whiskey  
Honey I done a complete 360

That's right  
I'm back on the town, back on the whiskey  
Honey I done a complete 360

I quit my job, and wrecked my pickup  
Going down hard and don't care if I ever get back up
