Bros

Materialistic girl  
There used to be a time  
When we would share  
Everything we ever hade together  
But then you met a man  
Who had so much more than I  
I'm gonna tell you what he had

He had the money to put the diamonds on your rings  
Money to put the furs on your back (YUK!!)  
Money to give you everything  
Everything you never had with me  
Materialistic girl don't do it to me girl

I always said material things  
Should not rule our lives  
But you cant get enough  
I'm giving you an exemption  
So you can take the milk and honey  
Is this the meaning of love

He had the money to put the diamonds on your rings  
Money to put the furs on your back (YUK!!)  
Money to give you everything  
Everything you never had with me  
Materialistic girl don't do it to me girl

But did you have nothing  
Nothing with me  
So its time  
So set this love free

He had the money to put the diamonds on your rings  
Money to put the furs on your back (YUK!!)  
Money to give you everything  
Everything you never had with me  
Materialistic girl don't do it to me girl

Money you never know  
Might have had it one day girl  
Money you never know, we might have been together  
Money but did you go thru lovin another  
Rough with the smooth rough with the smooth

Don't let money control your feelings

Materialistic girl
