

## Shot In The Back

Bros

Take a walk, look don't talk  
Take your life in your own hands  
Kicking ass on the grass (for what)  
Just for a couple of dimes

It goes tick tock, tick tock, tick tock (oh)  
Cos they're mixed up, pumped up, drugged up (oh)

We can't take it we just can't take  
Can't blame it on the sign of the times  
No hand shake just heartbreak  
It's just another man shot in the back  
Shot in the back, shot in the back

Cant you see what you've got  
You've got your lives in your back pockets  
No second chance dreams of the past  
It's just a crazy life sleeping in pain

It goes tick tock, tick tock, tick tock (oh)  
Cos they're mixed up, pumped up, drugged up (oh)

We can't take it we just can't take  
Can't blame it on the sign of the times  
No hand shake just heartbreak  
It's just another man shot in the back  
Shot in the back, shot in the back
