

# I've Changed

Brotha Lynch Hung

Shit, it's been about nine hundred days since I drank last (Yeah)  
Started smokin' more weed, no coke, no speed  
But this shit hit like dope  
Got a nigga sweatin', take a shower, hot water, no soap  
And I'll never ever leave the West Coast  
Unless I gotta murder somebody, or if I got a show  
But yes, I'll kill a nigga if you gotta know [\*gunshot\*]  
See, that nigga in real life, he gotta go  
Yesterday I had a flashback (What's that?)  
Yeah, we ran in the building, I was pulling down the black mask  
Get the computers and the ADATs  
Had niggas outside in case they come in and gotta spray that  
Took everything, even the strap  
Put everything we had in the back of the Cadillac (Come on)  
Yeah, I always think about that  
How we coulda had the nigga bleeding while he's stinkin' out back

But I changed (I changed, I changed, I changed)  
I've changed (I've changed, I've changed, I've changed)  
I've changed (I've changed, I've changed, I've changed)  
I've changed

I don't need to bring it up no more  
I was thinkin' 'bout my sister, she ain't up no more  
Yeah, she sadly passed away when I was up on tour  
And why I ever let 'em stay, I don't know what for  
You shoulda seen it, I couldn't feel my face  
Back of the tour bus, threw up all over the place  
Told RB, "We gotta stop this shit  
We gotta cancel this show, I can't rock this shit"  
He said, "Nigga, you gotta do it, we gotta get this grip  
Blew her brains out, my brother witnessed it"  
Take me home, I gotta get this nigga  
And put body in the box 'fore this shit get bigger  
I cut his throat with these scissors  
And make a meat stew in a Crockpot with his three sisters  
Watch his mom have a hissy fit  
And it'll take a whole ounce just to get me lit

'Cause I changed (I changed, I changed, I changed)  
I changed (I changed, I changed, I changed)  
Yeah, nigga, I changed (I changed, I changed, I changed)

Nigga, I changed (I changed, I changed, I changed)

Shot up to my sister, rest in peace  
Michelle Mann, I love you and I always will  
Grrr
