

## 4th King

Brother Ali

Eh, eh, eh eh  
A shadow box in with a trick of life  
A day that disappears into the night  
Wings of gold that shattered into dust  
So understand what's in your hands is not enough  
Ahh, ahh

Chorus:  
Why don't you stop waiting for forever  
Forever might never come  
Why don't you stop waiting for forever  
Living like it's not begun  
Cause the now, the now is the only time that matters  
Come on stop waiting for forever  
Forever might never come  
Ey ey ey ey ey ey ey  
Forever might never come

The moment we decide to let it go  
The future is the one we not control  
Illusions of what love's suppose to be  
Can pull you in and feed the insecurity  
Ohhh, ohhh

Why don't you stop waiting for forever  
Forever might never come  
Why don't you stop waiting for forever  
Living like it's not begun  
Cause the now, the now is the only time that matters  
Come on stop waiting for forever  
Forever might never come  
Ey ey ey ey ey ey ey  
Forever might never come

You want it all, everything you want it for free  
And if you wanna be everything you said you'd be

Why don't you stop waiting for forever  
Forever might never come  
Why don't you stop waiting for forever  
Living like it's not begun  
Cause the now, the now is the only time that matters  
Come on stop waiting for forever  
Forever might never come  
Ey ey ey ey ey ey ey  
Forever might never come
