

# Night Drive

Brother Firetribe

Lost soul  
In the parking lot  
No sleep  
Awake for ages

No sound  
Both hands on the wheel  
My broken, restless heart is throwing up  
I'm turning on the engine  
I'm heading to the dark

Just another night drive  
Splitting the dark with the ghost of you  
I'm dying to come back alive  
Reach for the end of the line  
All the memories  
All of you and me  
Keep me awake, I can't break free and now  
Night after night all I can do  
Is just go out for another drive

Darkness on the edge of town  
No lights in the tunnel of love  
No songs on the stereo  
The engine makes the sound with the pouring rain  
Trying to close the curtains  
But the light keeps creeping in

Just another night drive  
Splitting the dark with the ghost of you  
I'm dying to come back alive  
Reach for the end of the line  
All the memories  
All of you and me  
Keep me awake, I can't break free and now  
Night after night all I can do  
Is just go out for another drive
