

## Valerie

Brother Firetribe

The first time I saw you I couldn't believe  
How you looked and how you played your part  
You looked like an angel and I, just a stranger,  
Was hooked by the second we talked  
Almost tears in my eyes I just stared at your smile  
How you lifted my spirit up high  
Lost in the moment I stumbled and crawled  
See I almost went out of my mind

Feeling you  
Touching you

Was all I wanted to do  
Before the night is over  
I'm begging you please

R:  
Valerie  
I get lost in your eyes  
How I fall for your smile  
It takes me away  
So please won't you stay  
Valerie  
We've got night on our side  
We can cross that line  
Just take me away  
Oh, please won't you stay

I said to myself only one thing's for sure  
If I can't have you I'll probably die  
Can't let you go, I won't let you go  
You're way too good to be true  
Then from fatal attraction to crucial distraction  
You were gone in a blink of an eye  
I couldn't believe, how this could be  
No explanation, no goodbye

Feeling you  
Touching you

Was all I wanted to do  
But before the night was over  
You were gone with the wind

R: (x2)

Oh, Valerie  
Stay with me  
I know you and me  
It's meant to be  
Oh, how I long for your touch  
Valerie, valerie...
