

For Old Times Sake

Brotherhood of Man

Smallback design and remember
When you were a kid you'd be found
Wherever I was then baby, you'd be around

Because you were that sort of person
I'm that sort of person too
I wish those times were back again somehow

For old times sake
Baby, give me one break
My life in vain
Baby, I just can't take
One more lonely night away
Waiting for my heart to break
Baby can I just see you once again?
For old times sake

I met you after your grown-up
Ever turn down a chain
My whole situation rearranged
I meant to turndown was a woman
And what that woman's doin' to me
If you don't love me then Good Lord set me free

For old times sake
Baby, give me one break
My life in vain
Baby, I just can't take
One more lonely night away
Waiting for my heart to break
Baby can I just see you once again?
For old times sake

Then baby I'm tellin you one thing
Sure as my heart would break
You could stop this whole day
Love me for old time's sake

For old times sake
Baby, give me one break
My life in vain
Baby, I just can't take
