

Guess Who's Taking You Out Tonight

Brotherhood of Man

Never thought I stood a chance
Never got a second glance
To look at you is all that I could do
Didn't know where to begin
Thought that I could never win
You smiled at me and all my dreams came true

Mmm, Guess who's takin' you out tonight?
Gonna hold your hand in the pale moonlight
Steal a little kiss when the time is right
When I take you out tonight

Mmm, Guess who's takin' you out tonight?
Gonna hold you close, gonna squeeze you tight
Wanna hear you say that everything's alright
When I take you out tonight

Never had a love before
Never ever need a [?]
I didn't think you'd ever look my way

Then I thought I'd take a chance
Ask you to the high school dance
When you said yes it was my lucky day

Mmm, Guess who's taking you out tonight?
Gonna hold your hand in the pale moonlight
Steal a little kiss when the time is right
When I take you out tonight

Mmm, Guess who's taking you out tonight?
Gonna hold you close, gonna squeeze you tight
Wanna hear you say that everything's alright
When I take you out tonight

Mmm, Guess who's taking you out tonight?
Gonna hold your hand in the pale moonlight
Steal a little kiss when the time is right
When I take you out tonight

Ooo, Guess who's taking you out tonight?
Gonna hold you close, gonna squeeze you tight
Wanna hear you say that everything's alright
When I take you out tonight
Guess who's taking you out tonight?
