

Lullaby

Brotherhood of Man

Lullaby spinning around in my head
Hearing the words that were said
By Momma who sat by my bed

Lullaby music that touches your heart
Haunting you right from the start
Living and playing it's part

Lullaby it's always there by your side
Helping you face the unknown
You'll never be on your own

Lullaby peacefully guiding you through
In everything that you do
Sharing each moment with you

Lullaby spreading it's magical charm
Holding you safe in it's arms
Keeping you safely from harm

Lullaby listen to what it can bring
Sweet words of wisdom to sing
A message that means everything

Lullaby it's always there by your side
Helping you face the unknown
You'll never be on your own

Lullaby peacefully guiding you through
In everything that you do
Sharing each moment with you

Lullaby it's always there by your side
Helping you face the unknown
You'll never be on your own
