

Part Of My Life

Brotherhood of Man

Your part of my life
Your everything right
Your all that I need
Your part of my hair
Your half on my brain
I love you indeed
You fill my days
You fill my nights
You lock me up
With me all nights
And with all its touch
I want you so much
Your part of my life

Your part of my dream
A beautiful theme
Your so much to me
Your loving means more
Than ever before
Now we found a theme
You are my heart
You are my soul
Without you I wish
You already called
And when I'm with you
There's so much to do
Your part of my life

Your part of me
And I love you
Your part of me
And I love you

Your part of my life
Your everything right
Your all that I need
Your part of my hair
Your half on my brain
I love you indeed
You fill my days
You fill my nights
You lock me up
With me all nights
And with all its touch
I want you so much
Your part of my life

Your part of me
And I love you
Your part of me
And I love you
Your part of me
And I love you
Your part of me
And I love you
Your part of me
And I love you
Your part of me
And I love you
