

The World Gets Better With Love

Brotherhood of Man

Here comes John, with nothing to eat
Think of John, no shoes on his feet
Hungry and poor, how can he survive
Only brotherly love, It's gonna keep him alive

So let the people sing
So let the people sing
Let the whole world shout, about it
Let the whole world shout
Let the teachers teach
Let the teachers teach
Like there ain't no doubt, 'bout it
Like there ain't no doubt
Just sing it loud
'Til the records shows
That the world
That the world
Gets better
Gets better
With love

Here come the war, Gotta think of the side
Think of the dead, Such a sad loss of life
Out in the stars. I don't rightly recall, Only brotherly love
And to put an end to it all

So let the people sing
So let the people sing
Let the whole world shout about it
Let the whole world shout
Let the teachers see
Let the teachers see
That there ain't no doubt, 'bout it
That there ain't no doubt
Sing it loud
'Til the records show
That the world
That the world
Gets better
Gets better
With love

So let the people see
So let the people see
Let the whole world shout about it
Let the whole world shout
Let the teachers see
Let the teachers see
That there ain't no doubt, 'bout it
That there ain't no doubt
Sing it loud
'Til the records show
That the world
That the world
Gets better
Gets better
With love

So let the people sing
So let the people sing
Let the whole world shout about it
Let the whole world shout
Let the teachers see
Let the teachers see
Like there ain't no doubt, 'bout it
Like there ain't no doubt, 'bout it
Sing it loud
'Til the records show
That the world
That the world
Gets better
Gets better
With love
