

# Light Up The Night

Brothers Johnson

Light up the night  
Burn out the dark  
Let's set the world on fire

Light up the night  
Love is the spark  
We want to take you higher

Here is the lively invitation  
To strike up, come on let's light the situation  
Let's hit the city find some people we know  
And light the night, come on girl we got to glow, glow

Light up the night  
Burn out the dark  
Let's set the world on fire

Light up the night  
Love is the spark  
We want to take you higher

Come on you got to get your motor running  
Tonight, the night were gonna have the sun in  
[unverified] what you feel that you're a fire inside  
Then hold me tight in the moonlight of the night

Light up all through the night  
Light up night light bright  
Light up the sky tonight  
Light up the sky

Party all through the night  
Light up night light bright  
Light up the sky tonight  
Light up the sky

(All night  
Shine on bright tonight  
Shine on bright  
All night)

Light up all through the night  
Light up night light bright  
Light up the sky tonight  
Light up the sky

Party all through the night  
Light up night light bright  
Light up the sky tonight  
Light up the sky (all night long)

Light up the night  
Burn out the dark  
Let's set the world on fire

Light up the night  
Love is the spark

We want to take you higher

Burn out the dark  
Let's set the world on fire

Love is the spark  
We want to take you higher

Light my night with love  
Shine on bright with love

Burn out the dark  
Let's set the world on fire

Love is the spark  
We want to take you higher

Light up the night (light my night with love)  
Burn out the dark  
Let's set the world on fire

Light up the night (light my night with love)  
Love is the spark  
We want to take you higher
