

Heart Of Stone

Brothers Of Metal

Die - hammer in hand, I'm the undertaker
Defy - I'm the god of gods
Prepare to meet your maker - you're going down
I have come to fight, I accept the challenge, I stand alone
Tonight I will show them all what you're truly made of
A titan with a heart of stone

Are you ready to fall where you stand?
Are you ready to die by my hand?

Ready to fall where you stand? (By thunder!)
Ready to die by my hand? (Now)

Heart of stone
Who's gonna be the last one standing?
Heart of stone
Who's gonna be the first to fall?
Heart of stone
We're locked in a fight to the death and I know
That I will break your heart - your heart of stone

Why won't you just die?
Despicable, you think you are the master, a giant above all
Tell me, why do you need me
To feed your swollen ego, to keep you satisfied

You can try to take me down - outrageous disgrace
You even claim your strength is greater than mine
You make me laugh, I am the god of thunder
You've come to fight, and I won't let you down

Are you ready to fall where you stand?
Are you ready to die by my hand?

Ready to fall where you stand? (By thunder!)
Ready to die by my hand? (Now)

Heart of stone
Who's gonna be the last one standing?
Heart of stone
Who's gonna be the first to fall?
Heart of stone
We're locked in a fight to the death and I know
That I will break your heart - your heart of stone

Are you ready to fall where you stand?
Are you ready to die by my hand?

Ready to fall where you stand? (By thunder!)
Ready to die by my-

Heart of stone
Who's gonna be the last one standing?

Who's gonna be the first to fall?
Heart of stone
We're locked in a fight to the death and I know
