

## A Little Bit Trouble

Brothers Osborne

Every thing about you says I should probably get going  
But everything about me says I wanna stay right here  
Everybody's got some things better off not knowing  
That's just the same for us  
Might be a little dangerous  
Heard somebody say you're a little heart breaker  
Sooner or later I'll wake up and you'll be gone  
The way that you got me feeling right now  
Got me thinking about how I don't care if they're wrong  
You can break my heart all night long

No you  
You're a little bit trouble  
No you  
Baby that's just fine  
Cause you're easy on my mind  
Easy on my mind

Whoever said nothing good ever happens after midnight  
Has probably never seen how the moonlight shines on you  
Let's take a little chance and our romance dancing in the headlights  
Let's lose track of time, with your skin on mine

No you  
You're a little bit trouble  
No you  
Baby that's just fine  
Cause you're easy on my mind

The way that you got me feeling right now  
Got me thinking about how I don't care if they're wrong  
Cause you can break my heart all night long

No you  
You're a little bit trouble  
You know you  
Baby that's just fine  
Cause you're easy on my mind  
You're easy on my mind
