

## Must Have Love

### Brown Eyed Girls

Being happy because we're together  
The precious memories of us together on a winter day  
I will always remember on a cold day  
Unforgettable Memory

The familiar sound of music, filled in the streets  
Like a white foam, the snow falls and flocks densely  
You can hear bells clearly from far away  
I feel like it is prepared for me, its so beautiful woo~

Even without saying, you can know  
I only need you who always smiles  
You must know about my feelings, even the heavens know  
The snow falls all over the world

Because I've known you as a friend  
I remember the awkward confession that was made  
Knowing with the reason of love  
Everything is beautiful, in this world I will only love you woo  
~

Even without saying, you can know  
I only need you who always smiles  
You must know about my feelings, even the heavens know  
singing all aloud  
singing all aloud

Being happy because we're together  
The precious memories of us together on a winter day  
I will always remember on a cold day  
Unforgettable Memory  
Unforgettable..  
Memory
