

Foolish Pride

Brownstone

Don't let foolish pride get in the way of a good love
Like yours and mine

How could you let me walk outside your door
When there's so much you wanted to say?
How could you just pretend you could ignore
All the feelings that true love has made, ooh baby?

Ooh baby, ah baby, I was right there by your side
Through good and bad, ooh baby
Ooh baby, ah baby, let me know the reason why
You're treating me so bad

Don't let foolish pride get in the way of a good love
Like yours and mine
Don't let foolish pride make you say things
That you don't mean

Ooh my baby, my sweet baby
I'm the one you held so dear
Now that the weather here is changing
You don't even want me near

You know in the beginning, everything was rosy
Everything was a okay
Now you're telling me to go
I guess I'll be on my way

Ooh baby, ah baby, I was right there by your side
Through good and bad, ooh baby
Ooh baby, ah baby, let me know the reason why
You're treating me so bad

Don't let foolish pride get in the way of a good love
Like yours and mine
Don't let foolish pride make you say things
That you don't mean

Don't let foolish pride get in the way of a good love
Like yours and mine
Don't let foolish pride make you say things
That you don't mean

I gotta know, I wanna know, foolish pride

Ooh baby, ah baby, I was right there by your side
Through good and bad, ooh yeah
Ooh baby, ah baby, let me know the reason why
You're treating me so bad

Don't let foolish pride get in the way of a good love
Like yours and mine
Don't let foolish pride make you say things
That you don't mean

Don't let it, don't let it, don't let it get in the way now
Don't let it, don't let it, don't let it get in the way now

Don't let it, don't let it, don't let it get in the way now
Don't let it, don't let it, don't let it get in the way now

Don't let foolish pride get in the way of a good love
Like yours and mine
Don't let foolish pride make you say things
That you don't mean
