

Team Player

BRS Kash

(Who made this beat?)
(Team player, team player, yeah) (twisted genius, baby)

How you supposed to be my dog but end up crossing me
When I made the sacrifice, yeah, so we all can eat
I've always been a team player, team player
Coming up we was some dream chasers money made hater
We show them niggas love you turn to victim
Turn around I swear I miss him
Lost my brother to the struggle won't forget him
I've always been a team player, team player
Coming up we was some dream chasers money made hater

That nigga ain't on your team that's some shit I've seen lately
Like Malcolm by any means
I ain't chasing dreams I'm chasing paper
Can't complain this what I pray for
Take it all away if I'm ungrateful
I'm one call away but I won't make it
Just call today when you need favors
No, I won't cover my scars
I've been to war that shit done made me
I had to protect my heart
So many times they tried to play me
And it saved me
Had to slow down I don't want to take drugs that make me lazy
Plus I don't want nobody else around me tryna snake me

How you supposed to be my dog but end up crossing me
When I made the sacrifice yeah so we all can eat
I've always been a team player, team player
Coming up we was some dream chasers money made hater
We show them niggas love you turn to victim
Turn around I swear I miss him
Lost my brother to the struggle won't forget him
I've always been a team player, team player
Coming up we was some dream chasers money made hater

I stayed down for the come up
Used to be a runner
Can't get money for my momma
Shootin' dice yeah I do numbers, aye
Posted on that corner laughing talking with my partners, aye
Master we outside but we ain't tryna dodge corona
I've seen niggas change on me that I ain't think would change on me
So now I've got these chains on me
But now this life ain't come for free
You gotta know, you gotta know
Everything I'm grindin' for
Sacrificed a lot so all the fakes and phonies had to go

These niggas so disloyal they gon' fold like they some larches
Leave a nigga when he down but when he up they all gon' be there
Tryna eat off my success got me perplexed this shit don't seem fair
Got me going through distress these niggas cancerous like lost hair
I'm done with all these games nigga
We ain't the same nigga

Both claiming the set even left don't got the gang with ya
And if I see you face to face bitch I'm gon' bang with you
That's the only fucking way I'll ever hang with you

Ooh ahh yeah
Time and time again I've been hurt over again
I said ooh ahh yeah
Nothing worser than, than when you lose a friend
I said ooh ahh yeah
Time and time again I've been hurt over again
I said ooh ahh yeah

How you supposed to be my dog but end up crossing me
When I made the sacrifice yeah so we all can eat
I've always been a team player, team player
Coming up we was some dream chasers money made hater
We show them niggas love you turn to victim
Turn around I swear I miss him
Lost my brother to the struggle won't forget him
I've always been a team player, team player
Coming up we was some dream chasers money made hater
